"AIM FOR THE STARS AND MAYBE YOU'LL REACH THE SKY"

**KENNETH E. SENIOR
AEROSPACE SCHOLARSHIP
FOUNDATION**

The Kenneth E. Senior Aerospace Foundation was created in January of 2008 in loving memory of Kenneth E. Senior, founder of Alken Industries, Inc. of Ronkonkoma, New York.

As an entrepreneur in the aerospace manufacturing industry Kenneth Senior created Alken Industries, a World Class Aerospace Manufacturing Facility.

Ken was born April 27, 1943 in Floral Park, NY, he was the son of Edwin and Dorothy Senior. He attended City College to study engineering. At the young age of 24, he worked on the U.S. Government's Lunar Landing Module program that resulted in the landing of a man on the moon in 1969. At the age of 25 he had the methods, vision and passion that led him to start his own Aerospace Manufacturing Company, Alken Industries, in 1967. Ken's leadership and management skills brought Alken national recognition. His consistent commitment to quality allowed his company to flourish into an internationally recognized precision aerospace manufacturer and defense contractor. In recognition of his contribution to the Defense industry, he attended the Inaugural Ball in Washington DC in 1985 and shook the hands of President Ronald Reagan and then Vice President George H.W. Bush.

Kenneth E. Senior has left an indelible mark on the Aerospace Industry of Long Island. As an employer, Ken touched the lives and hearts of many. He provided opportunities and education which inspired people to exceed their personal expectations and realize their full potential.

Kenneth Senior had a strong belief in the future of the Aerospace Industry thriving on Long Island where it has been historically prevalent. Ken's own determination and drive made his a "dream come true". In his honor this foundation was created to further Aerospace Technology Education on Long Island and give local, determined students the same opportunity to soar....
